THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT OF U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

25X1

1. Location: LAERZ airfield (U33) lies N of LAERZ village and about 6 km NNW of MIRON (U33).
2. Runways: Two concrete runways: one N-S, about 2,000 x 40 meters, the other, E-W, about 1800 x 40 meters. Taxi strips are about 20 meters wide.
3. Buildings: Control building, administration building, four new wooden barracks. (See map attachment). No hangars or repair sheds.
4. Technical Facilities: Only temporary lighting facilities and none that would allow for night use of the field.
5. Supply: Five dug-in railroad tank cars.
6. Personnel: Officers and EM occupy barracks about one km N of VIETZEN (U33), between the rail line and the eastern edge of the MURITZ SEE (U24). Roads entering the camp are barred to civilians. There are many sentries.
7. Aircraft: 17 YAK-9, 57 LA-5, 9 PO-2, parked as shown on map attachment. There was little flight activity. Many planes were being repaired, most being under tarpaulins and pegged down. All the YAK-9's and 38 of the LA-5's had either blue or white prop hubs. Nineteen LA-5's had red prop hubs [redacted] also on tail surfaces [redacted] Four LA-5's had two-bladed props; one had three blades.
8. Miscellaneous: LAERZ looks like a first-class combat airfield, besides being one of the most heavily occupied in the north. Aircraft are said to have arrived in early August 1949. Two vehicles seen were trucks [redacted]
9. PERLEBERG airfield (T70), when visited on 10 October 1949, contained four PO-2, parked on the field. Truck [redacted] was hauling SAF troops from the field to town.
